Forecast for Friday 17 Mar 2023

Weather: Extensively cloudy to start, with this potentially developing breaks through the morning to allow both sunny spells, but also scattered showers to develop. Turning more generally cloudy in the afternoon once again, with further rain, and an outisde chance of seeing a heavier showers with hail and possibly thunder. Mostly cloudy and damp into the evening, with cloud lowering once again.

Chance of cloud-free hill tops above 800m: 20% at first, becoming 70% during morning then becoming 30% in afternoon.

Low Cloud and visibility: Areas of fog and low cloud above 300m to start the morning, mainly over western hills, then lifting and breaking through the morning. Cloud becoming persistent again in the afternoon above 600m. Away from cloud, mainly good visibility but briefly less than 10km in any showers.

Meteorologist's View

A mild day down in the valleys but still feeling cold on the tops, especially in low cloud and in any showers.

Forecast for Saturday 18 Mar 2023

Weather: Mainly cloudy overnight and to start the morning with the odd shower. Dry for most of the morning with sunny spells developing but a few showers developing in the afternoon, mainly across the east of Snowdonia with a small chance of hail and thunder. Becoming dry, clear and colder late in the evening.

Maximum wind: South or Southwest 10-15mph, gusts 20-25mph.

Chance of cloud-free hill tops above 800m: 20% becoming 70% by afternoon, lowering to 30% for a time early evening.

Low Cloud and visibility: Areas of low cloud and fog above 400m with patches on lower slopes, lifting to 900m by the afternoon but lowering at times in any showers and generally for a time early evening. Generally good visibility away from cloud but some reductions in showers.

Temperature: **Valleys:** 8C, rising to 12C, falling to 4C in evening.
At 800m: Plus 5 or 6C, falling to 2C late in evening.
Freezing level: Above summits, falling to 900m late in evening.
